2021 WATER HAULING REGULATIONS

GENERAL

The season for hauling will be year-round. Hauling may be done 24 hours per day if HAULER has a card to the system.

There will be a \$500 annual (non-refundable) permit fee. One card will be assigned per permit. A \$25 fee will be charged for each additional card. If additional cards are issued, the administrative office must know the license plate number of the truck the card will be assigned to. This is for inspection and tracking purposes. All accounts will be billed on a monthly basis. Cost per thousand gallons is \$30.00 (\$.03 per gallon), or fraction thereof. The equipment will do all the logging of water hauled, according to the card used. If an account goes unpaid, after 60 days the card issued to the account will be deactivated.

Damages to District property will be billed at cost plus 28% (18% on materials and 10% on labor), and could also include forfeiture of right to use water hauling station.

Water sales from the Bulk Station may be stopped or restricted due to environmental (drought) or other reasons deemed necessary by the Evergreen Metropolitan District.

Inoperability of the Bulk Station during off business hours (between 4:30 p.m. - 8:00 a.m. weekdays) or on weekends will not be construed as an emergency. The District will investigate and/or service problem with the station on the next business day.

TRUCKS AND TANKS

A visual inspection of every truck or tank used in hauling must be done on an annual basis by Evergreen Metropolitan District personnel.

Trucks must have an air gap system approved by EMD personnel before hauling card will be activated. All HAULERS MUST SUPPLY THEIR OWN HOSE. Hose must be capable of hooking up to a 2-1/2" fire hydrant thread. Hose must have 2-1/2" female thread. All HAULERS must fill at the top using an air gap. DO NOT BOTTOM FILL INTO TANK.

Description of material in non-potable tank must be put on Permit, with specific antidote or manufacturer's name and telephone number. NO CHEMICAL MIXING SHALL BE DONE AT THE FILL STATION.

PENALTIES FOR VIOLATIONS

Any water HAULER violating the air gap filling regulation will lose all privileges of hauling from the Evergreen Metropolitan District water system. Hauling without a permit or from unauthorized areas, such as fire hydrants, will result in a \$150.00 fine and revocation of the HAULER'S permit. All costs incurred by such acts shall be billed to the HAULER, according to the fee schedule, including all legal costs, state fines, lawsuits and damages.

Violation of any of the aforementioned regulations will result in the immediate revocation of the water hauling permit. A hearing may be held, if requested by the HAULER in writing. Submit request for hearing to:

David W. Lighthart, General Manager
Evergreen Metropolitan District
30920 Stagecoach Blvd.
Evergreen, CO 80439

Permit fee will not be prorated and is in effect from January 1 through December 31 of the year issued.

I have read and understand these regulations.
